participant comments...

“It was valuable to listen to different viewpoints and issues... in how utilities will have to deal with climate change.” Workshop participant

“I would suggest to get the technical process grounded but somewhere in there you need some policy discussion or you’ll have a nice plan on a shelf....” Workshop participant

WORKSHOP OBJECTIVES

1. Recognize the framework guiding the PWSU-CIWG
2. Gain an understanding of the “User Perspective” from the planning and operations viewpoint
3. New understanding of user perspective informs the technical approaches, b) identify additional research gaps; and 3) suggest proposal/funding opportunities.
4. Move forward on Knowledge Management System development.
5. Determine next steps.

WORKSHOP Schedule

Set the stage: Agenda, Introductions, Updates

User Perspective and The Planning process - Presentations and discussion

Break

Utilities planning and operations - Presentations and discussion

Lunch

Interactive activity and Discussion

Break

Knowledge Management System

Determine next steps and reflection, evaluation
